# Partnerships

In carrying out its health promotion, disease prevention and disaster relief programs, Healing Hands collaborates with a consortium of other grassroots organizations that share similar objectives, thereby ensuring a pulling-together of resources, strength, knowledge, ideas and strategies which enhance capacity building and enable a more extensive reach.

This approach always ensures results, local ownership and sustainability.

We have participated in a medical outreach partnership to Swaziland organized by Joyce Meyers Hand of Hope. Thousands were served with medical and dental care and many got an opportunity respond to the gospel.

We have also partnered with local and foreign churches to collect clothes for displaced persons in Nigeria

We are open to collaborate with organizations and individuals who share our values and wish to support our cause.
